

Vishwaraj Base Mounts are excellent absorbing mounting in shear and compression obtaining good vertical flexibility with the advantage of horizontal stability. Compact, light weight and strong base metal withstands high shock loads without deformation. Special combination of rubber and design gives better isolation against horizontal and vertical vibration. The durability of rubber mounting is quite high. It effective vibration isolation for different types machines with rotating movements

Applications:

Diesel Engines ● Industrial Generators ● Air Compressors ● Cooling Towers ● Pumps etc.

Mount Type	Range Kg/mount	A	B	C	D	t Bolt Size	T Base Plate Thickness	d MM
VBM-10	50-120	100	32	78	57	M8x60	6	8.5
VBM-20	150-300	125	43	100	80	M12x80	8	10.5
VBM-40	300-650	190	65	160	120	M16x100	12	12.5
VBM-80	600-1200	240	85	200	160	M20x125	14	16.5
VBM-140	1200-2000	320	118	270	214	M24x125	20	20.5
